I understand that Peer Support Workers come from the perspective of their lived experience with mental health concerns and recovery. I agree to be open in class discussions about the fact that I have experienced a mental health concern. As such, please briefly describe your mental health.

Please check which of the following apply to you:

- It has been at least one year since I was diagnosed with a mental health concern and started my recovery process
- I graduated from a minimum of high school or hold a GED certificate

1. Why do you want to take this training?

2. What makes you a good candidate to work with other mental health consumers?

3. What does recovery mean to you?

4. Why is it important for Peer Support Workers to be willing to tell their recovery stories?

5. What will be a challenge for you in attending this training? How will you deal with this?

6. Is there anything else you would like us to know in considering you for the Peer Support Worker training?

I understand that after passing this course I will still need to engage in the National Canadian CPS process in order to be considered a *nationally* certified Peer Support Worker.
